

ORGANIC GARDENING

- Why would you want to garden in the first place?
- Where should you decide to put your garden – home, other
- What about pH and the trees around?
- What kind of soil should you use?
- What is the difference between fertilizers?
- Should you put a pesticide on your plants?
- How about a fence?
- What plants should you put in?
- How about pot and container gardening?
- Veggies for the garden?
- Perennial herbs?
- Annual herbs
- Asparagus are perennials
- How much water?
- What about weeding?
- How do you stop birds and rabbits?
- What else should we know?
